PROFILE

As an aspiring web developer, I'm proficient in Python, JavaScript, HTML, CSS, Linux, and Git. I possess a diverse and promising skill set, eager to grow and learn more. I thrive on problem-solving and am equally comfortable working independently or as part of a team. Passionate about programming, I'm excited to embark on new challenges and contribute positively to projects.

EXPERIENCES

2021 - 2022

Shans-16 LLC
Engineer - Accountant

My responsibilities included managing online financial transactions and documents. I utilized Office software to create spreadsheets, reports, and etc. for accounting tasks.
